### **Galoc 4 Open to Flow**

Nido Petroleum Ltd (Nido) is pleased to report that the Galoc 4 well was opened to flow to the Energy Searcher early this morning for a similar programme as undertaken on Galoc-3 last week.

It has only just begun, however:

- ✓ Well integrity has been confirmed
- ✓ Clean up flow is underway.

Nido expects the Galoc 4 flow to be completed today when oil rates are confirmed and fluid samples gathered. Nido will continue to keep the market informed as material information becomes available.

A link to the daily drilling updates is provided on the Nido home page [www.nido.com.au](http://www.nido.com.au). Nido will provide the market with a weekly drilling summary each Wednesday and will continue to notify the market immediately of material events throughout the Galoc drilling programme.

Yours sincerely

**Joanne Williams**  
Deputy Managing Director
